Target group(s)

Teachers, adults' literacy consultants, professional trainers; managerial/administrative staff from organizations that offer literacy. **Especially people over 45 years old.**

Number of participants

20: **6 from Italy** and **14 from other countries** (at least 3 countries other than Italy)

Date

15th–19th March 2014

Venue

Reggio Calabria, Italy

Main activities of the Workshop

The workshop deals with the topic of adults' digital literacy, deepening the knowledge and use of current technologies for the participation in the democratic activities by the new media, developing new linguistic and intercultural competencies, enhancing human capital and creating important opportunities of exchange among participants. The activities will be set like this: focus group on analog and digital generations; working table to share personal reflections; production of a report; development of a project of adults' computer literacy through the contribution of all participants; theoretical and practical in-depth analysis of current technologies for the participation in the democratic activities through the use of new media, hands-on labs, simulations. At the end of the activities is planned the production of a Social Media Package that will document the main activities carried out and the documents elaborated; it will also contain filmed interviews to the participants.
